ITALIAN DESIGN, GLOBAL NETWORK

We create ideas, solve problems
and anticipate demands

Over 25 years in the exhibition design sector,
in the expo and conference field, for exhibitions,
showrooms and events.

We are a general contractor and service provider.

We provide an all-round business model for expo,
conference and event organizers as well as turnkey
solutions for every exhibitor.

We are part of a group listed on the stock exchange.

Italian Exhibition Group SpA, top organizer of
expo events and a company with shares
listed on Euronext Milan.

We are Italian and we are worldwide.

Via FB International, a company with branches in
New York and Las Vegas, we are able to ensure
products and services to the same client on
various markets, even if they're divided by an ocean.

We are Prostand.

Working with us means putting your trust in
an organization that supports "Made in Italy"
by means of a global network.

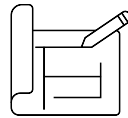

EXPERIENCE BUILT UP THROUGH TIME

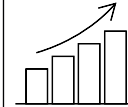

Prostand Srl was launched thanks to the intuition of a Romagna entrepreneur who realized that the closeness to Rimini expo centre was a great business opportunity.

1996

Colorcom inked a historic **agreement with Vicenza Expo Centre for the overall** fitting out of Vicenza Oro, using The Boutique Show format.

2014

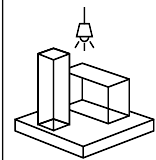

Italian Exhibition Group Spa was listed on Euronext Milan, a regulated market organized and managed by Borsa Italiana Spa.

2019

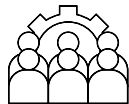

Osservatorio Allestimenti, the first observatory of temporary architecture focussed on business spaces, took off.

2022

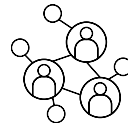

Colorcom Srl was founded thanks to the idea of a Vicenza entrepreneur. The company's vocation immediately targeted public bodies and foreign expos.

1984

Prostand was taken over by six local entrepreneurs.

2000

Italian Exhibition Group Spa, Italy's top expo company for expos organized directly, acquired FB International Inc., New York standfitters operating throughout entire USA.

2018

Italian Exhibition Group Spa acquired Prostand Srl.

Italian Exhibition Group Spa took over Colorcom, which then merged with Prostand Srl.

RES, Soluzioni di Arredo per il Contract was launched by Prostand.

SUSTAINABILITY IS A PROJECT

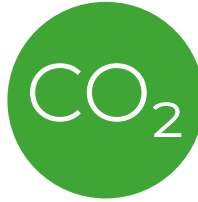

Our commitment to the “Zero Waste” process

We have begun a process aimed at achieving corporate sustainability and clearness, involving our integrated supply chain.

We intend minimizing our environmental and social impact and that of the various subjects involved in the services we provide - partners, suppliers and stakeholders - with constantly developing concrete projects.

Sustainable chain with the Zero Waste process:
regeneration and reuse of materials

Reduction of CO2 emissions:
modular and folding furniture
↓
volume reduced by 70%
↓
lower CO2 emissions caused by road transport

Reduction of energy consumption:
replacement of incandescent and fluorescent lamps with new-generation LED lighting

Reduction of environmental footprint:
products made from FSC and PEFC certified wood and its by-products; paint with a low resin content and carpet with 100% circular recycling

A PEOPLE COMPANY

Our values

The community

Prostand contributes to the economic, social and cultural development of the community in which it works, by means of the principles of legality, legitimacy, clearness, the value of people, care for and protection of the environment.

Safety

Safety is one of the cornerstones of the relationship between Prostand and its supply chain, formed by workers and professionals, suppliers and stakeholders. Their protection, regular pay of the workmen and worksite safety are an objective of Prostand, as is the correctness of its relationship with suppliers and shareholders and in public tenders.

Inclusion

Prostand supports a corporate culture of inclusion, which exploits diversity, with particular attention to and respect of matters of ethnic groups, religion, genre, disability and underprivileged social situations.

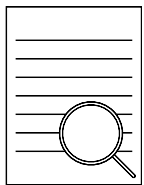

OUR RESEARCH AND DEVELOPMENT AT THE SERVICE OF CLIENTS

Osservatorio Allestimenti by Prostand

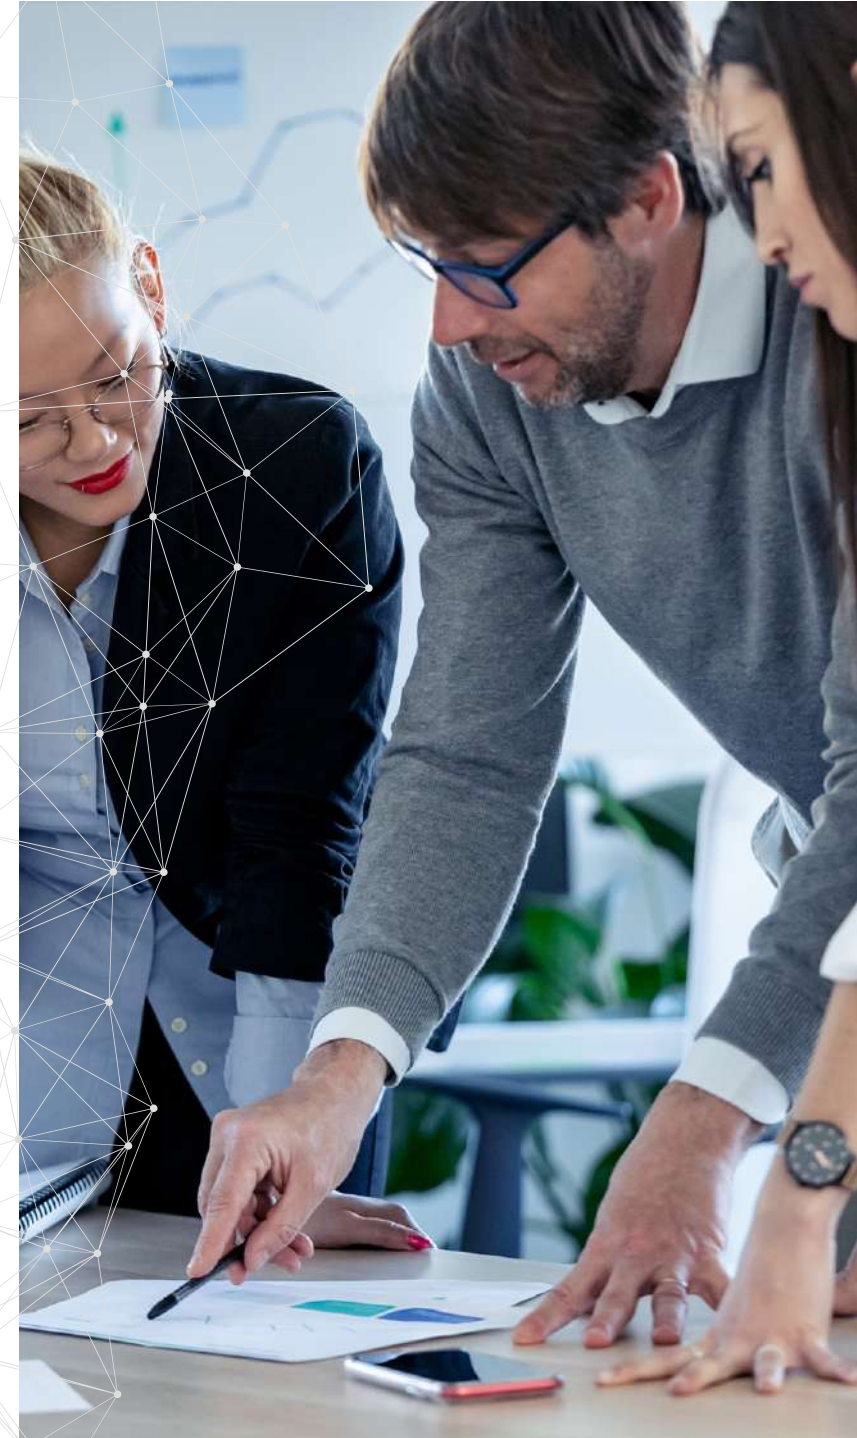

To support our clients with our all-round service, we are always looking for solutions, techniques and innovative material. For this purpose, we founded the Osservatorio Allestimenti by Prostand, **the first observatory dedicated to temporary architecture focussed on business spaces.**

The Observatory's work, which involves universities and international research institutes, has as its focus the environmental sustainability of the sector's productive system, crossover with other sectors, digitalization and the highlighting of Romagna's Exhibition Valley.

NON-STOP training

We make the difference because we look to the future and train our staff, aiming at on-going improvement that enables us to grow together. Thanks to the training, we constantly update our designers' and specialized workers' knowledge and skills, in order that they are always keep apace with the changing world and the ultra-rapid development of technology and materials.
