Purpose

Spreading Italian design through a global network

We develop ideas, we solve problems,
we anticipate questions

Dal 1996 offriamo soluzioni personalizzate e sistemi modulari. Operiamo come service provider, nel settore degli allestimenti in campo fieristico, congressuale, per eventi, manifestazioni, mostre e showroom.

La nostra attività si estende su tutto il territorio nazionale, nei principali quartieri fieristici europei e anche oltre oceano.

➤ We are a General Contractor and Service Provider

We offer a complete service for the organization of trade fairs and congresses. The acquisition of **Immaginazione Srl** has further enhanced our ability to respond to every need with expertise and flexibility. We offer turnkey solutions for every exhibitor.

➤ We are Italian and we are all over the world

Through **FB international** (a company with offices in New York and Las Vegas) and a network of international partners, we are able to provide

products and services to the same client across different markets, even with an ocean in between.

➤ We are Turnkey Green Heart

We take care of everything: the excellence of **sustainable exposure**.

➤ We are part of a stock exchange-listed group

Italian Exhibition Group Spa, the leading organiser of trade fair events and a company with shares listed on **Euronext Milan**.

➤ We are Prostand

And working with us means relying on a company that supports **Made in Italy** in a global network.

Time-honoured experience

Our history
chronicles our
evolution.

Stages in a growth that over the years
has seen us as leading players in the
organisation of trade fairs and congresses,
until we matured into our true vocation:
the complete production of events.

Prostand around the world

Italian design, global network, green heart.

Our work has extended, for **30 years**, **into Europe and overseas**, to respond to the needs of our international customers.

With the acquisition of **Immaginazione** we have increased our ability to organize **conference events in Europe**.

Through the acquisition of **FB International** by Italian Exhibition Group, of which Prostand is a part, we operate in the USA.

We follow our cosmopolitan inclination by being part of **IFES: the International Federation of Exhibition and Event Services**.

event solutions 

Design and build creative solutions for each event as if it were our own

Since 1986, Immaginazione has been synonymous with design, innovation and sartorial care.

Becoming part of the Prostand universe, it expands our expertise in the **management of congress, corporate and exhibition events in Italy and Europe**. A solid reality, recognised for expertise, precision, reliability and strong environmental commitment.

The logo consists of the letters 'S' and 'P' in a bold, dark red, sans-serif font, positioned side-by-side within a white square.A black and white photograph of a man and a woman in a professional setting. The man, on the left, is wearing glasses and a suit, smiling as he looks at a tablet held by the woman on the right. The woman is also smiling and looking down at the tablet. The background is slightly blurred, showing what appears to be an office or event space.

➤ General contractor

Consulting, planning and coordination to the technical management of corporate events and national and international conferences

➤ Experience

Over 40 years of experience and in-depth knowledge of major exhibition hubs

➤ Maximum integration

Maximum integration with Prostand: a single point of contact, a single vision

service provider

The logo consists of the letters 'G' and 'S' in a bold, dark red, sans-serif font, positioned side-by-side within a white square.A black and white photograph of a large format printer in operation. The printer is a long, industrial machine with multiple rollers and a large sheet of material being processed. The background is dark, and the machine is brightly lit, creating a sense of motion and scale.

➤ Visual Power

Design and layout of high-visual impact conference spaces

➤ Graphic services

Integrated graphic services, large format digital printing and customization, laser and plotter cutting, and digital Signage.

➤ Sustainability

High focus on sustainability (recyclable materials, GREENGUARD green printing)

ISO 9001:2015 – Quality management system

graphic support

Custom Solutions

Customised solutions dedicated to the individual exhibitor.

By listening carefully and taking care of every detail, we create an exhibition space that is all about the customer.

We build each customised stand from scratch thanks to a network of specialised craftspeople, guaranteeing the individual exhibitor: reliability, tailor-made solutions and quick responses.

➤ Tailor-made projects

Customised stands in line with the customer's needs and budget

➤ Single point of contact

To liaise with, freeing up time and energy to devote to business

➤ Always at the customer's side

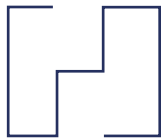

Even for last-minute requirements

➤ Integrated supply chain

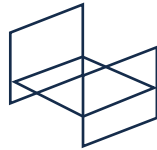

A complete network of specialised suppliers

➤ Our solutions:

Logistic services

- A single control centre in Italy and abroad.
- Management and handling.
- Vehicles for heavy transport.

Installation and assembly

- Manpower and specialised services.
- Installation and dismantling.

Environmental, Social, and Governance

Our ESG Strategy: commitment to
a sustainable and responsible present

Environmental

Prostand the business model

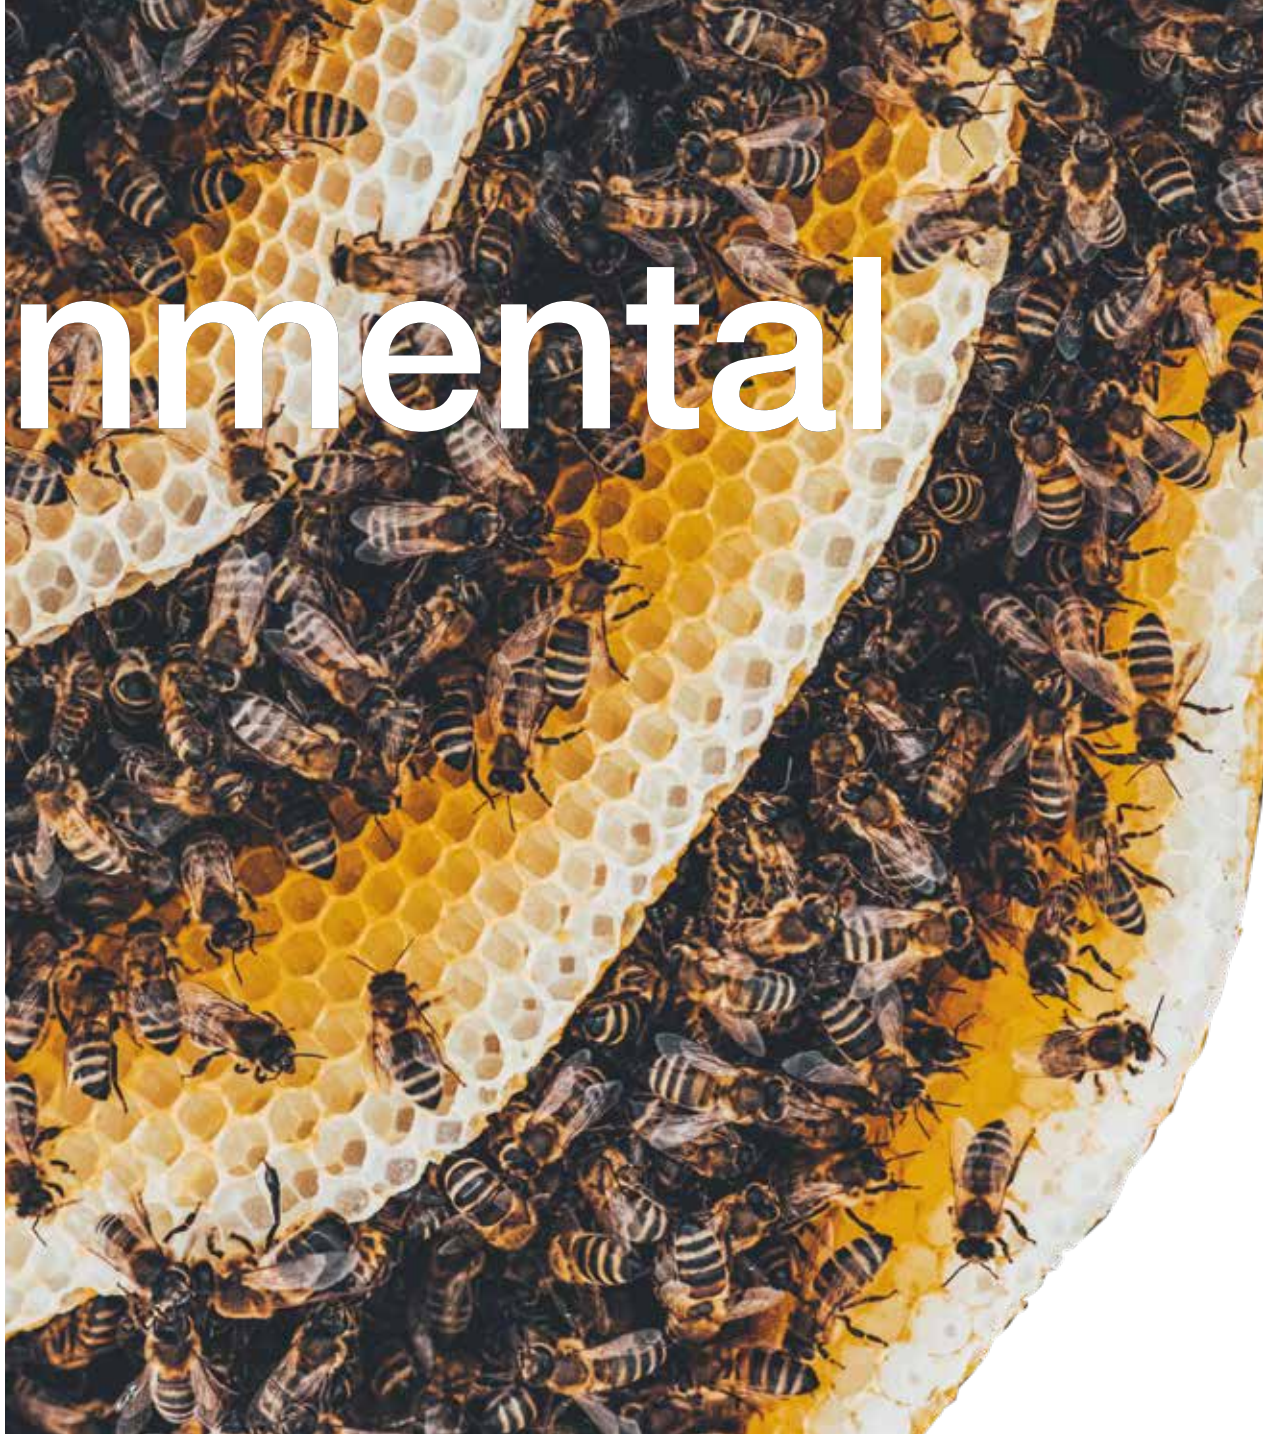

We have carved into our DNA a limited environmental impact inherent in its business model of using reusable, recyclable and restorable materials.

Bees are the symbol of our environmental protection. Bees that are necessary for life, bees that are extraordinarily organised, bees that are perfect constructors, bees that are transformers. This is why we, at Prostand, have embarked on a comprehensive sustainability path involving our entire integrated supply chain.

E

#savetheenvironment

➤ Regeneration and reuse of materials

Carpets are regenerated and reused as secondary raw materials (SRM) - by our

suppliers - until the end of their lifecycle, significantly reducing the amount of waste to be disposed of.

➤ Reduction of energy consumption:

State-of-the-art LED lamps.

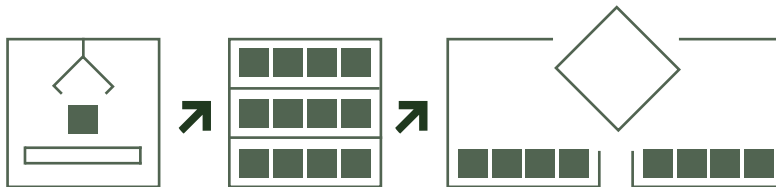

➤ Reduced environmental footprint:

Wood products and derivatives certified FSC® and PEFC™; 100% recycled and recyclable aluminium; “zero-emission”

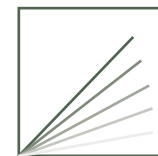

colored paints completely free of formaldehyde and solvents, with low resin content.

➤ Energy from photovoltaic Plant

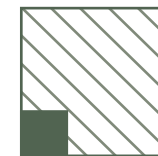

➤ Production sites and storage adjacent to main markets served

➤ Reduction of CO₂ emissions:

modular and foldable furniture

volume reduced by 70%

reduced CO₂ emissions due to road transport

Prostand fully offsets its CO₂ emissions.

Prostand is the first company in its industry to have **completely offset its CO₂ emissions** through mitigation strategies and the purchase of certified carbon credits.

In the first stage, we quantified the CO₂ emissions of the entire organization, obtaining ISO 14064-1:2018 certification, and then offset them through carbon credits.

Verified Carbon
Standard

The compensation project meets the **REDD+** criteria (Reducing Emissions from Deforestation and Forest Degradation), an international mechanism recognised by the **United Nations**.

Through the purchase of carbon credits, we are helping to support the **Keo Seima in Cambodia**, which aims to:

- **Preserving** tropical forest heritage
- **Safeguarding** a habitat rich in biodiversity
- **Protecting** a territory for the Bunong indigenous communities

M.O.RE The Prostand sustainable approach

Measure

Offset

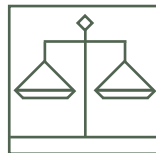

REduce

Only what is measured can be improved.
That is why we quantify our **neutralization** of CO2eq emissions associated with the entire organization.

MEASURE

We measure to be aware of our carbon footprint.

OFFSET

We offset the emissions generated through certified carbon credits.

REDUCE

We reduce our emissions through the progressive implementation of a mitigation plan.

Osservatorio Allestimenti

by Prostand

is the first outlook dedicated to **temporary architecture for the sustainable economy declined on business spaces.**

Our vision of corporate responsibility places emphasis not only on reducing the environmental impact of our activities, but also on the promotion of a culture of

sustainability through the outreach initiatives of the Osservatorio whose work includes **universities and international research institutes.** The Osservatorio focuses on trends in the sector through hybridisation with other sectors and all-round sustainability.

Social

People first

Our values

Everything we do is possible thanks to every single person who takes part in the process.

We work together towards the same goal, standing firm in our values.

➤ Community

We contribute to the economic, social and cultural development of the community in which we operate, through the principles of legality, legitimacy, transparency, value of the individual, care and protection of the environment.

➤ Safety

Safety is one of the cornerstones governing the relationship between us and our supply chain, which includes workers and professionals, suppliers and stakeholders.

Their protection, the regularity of workers' pay and safety on construction sites are our top priorities. As is fairness in dealing with suppliers, partners and in public procurement.

➤ Inclusion

We support a corporate culture of inclusion, which values diversity, with particular attention and respect for ethnicity, religion, gender, disability and disadvantaged social situations.

➤ Our Eco-Solidarity projects:

➤ **Rebirth Together – Prostand's second life of materials.**

We donate wood materials and colored paints to support

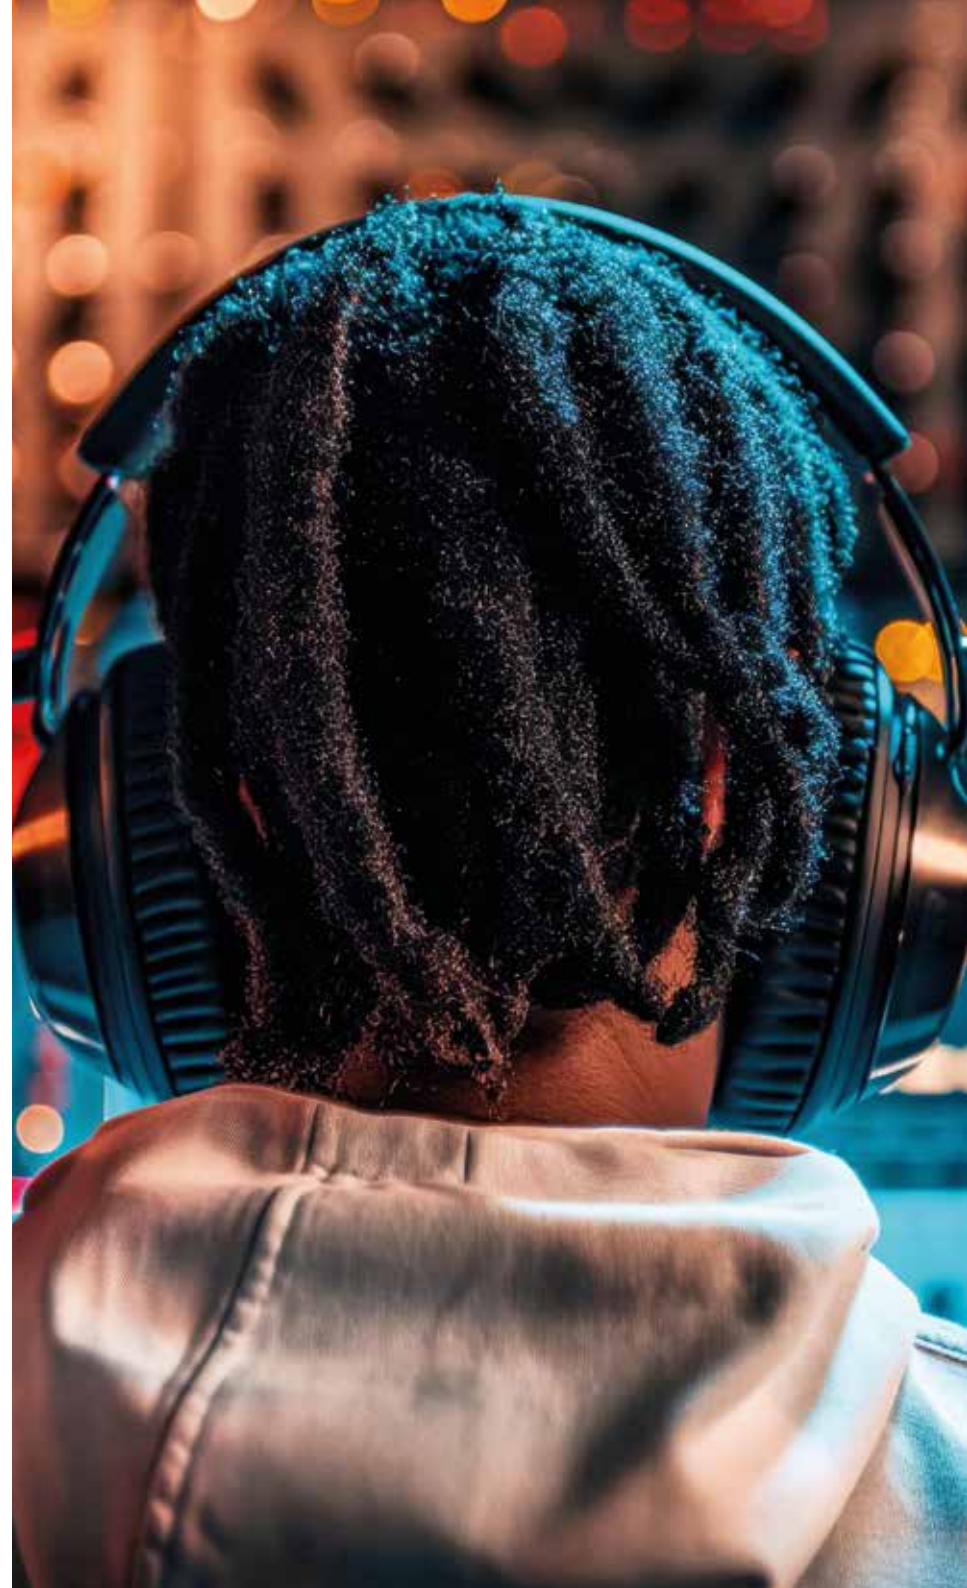

- Friends of the Yellow Submarine Association
- Milleorti for Tourism at the Macanno House Green Area
- the Pope John XXIII community

Prostand Corporate Academy

Prostand Corporate Academy, has as its purpose the contribution to personal fulfilment through specialised training and work, particularly in the field of Temporary Architecture, enhancing every talent, increasing inclusion, promoting the well-being of workers, and developing

positive perceptions of self and one's work. They are intended for both internal and external personnel and also for people who want to enter or re-enter the world of work by choosing the path of specialised qualification.

➤ The Academy's courses

➤ **Wood furnishings production
technologist**
(Level EQF6)

➤ **Sound technician**
(Level EQF5).

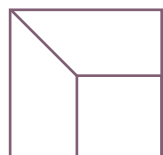

➤ **Rigger: overhead processing technician**
(Level EQF5)

➤ **Assembly and disassembly worker of
congressional fair provision facilities**
(Level EQF3)

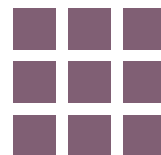

All courses are recognised in Italy in accordance with DGR 739/2013

➤ Who the Prostand Corporate Academy courses are aimed at

**Temporary
structure
assemblers**

**Warehouse
managers**

**Set-up design
technicians**

**Foremen and
site managers**

Electricians

**Graphic
designers**

Carpenters

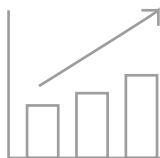

Governance

Prostand has started a harmonisation process with the parent company Italian Exhibition Group, a listed company, aimed at aligning internal procedures and processes to ensure a system of high standards.

➤ The processes

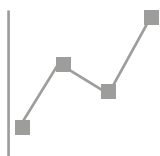

Quarterly reporting of financial accounting data

Statutory audit of financial statements

Structuring of a system of administrative controls ex L.262/05

Reporting of non-financial data in the area of sustainability-ESG

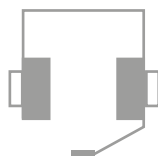

Adoption of the new ERP system SAP S/4HANA

Implementation of a Group Purchasing Procedure

Implementation of a system of internal controls with support from internal audit

Activation of a Whistleblowing procedure

Establishment of a 231 Organisational Model already activated by the parent company (in progress)
